ARCHITECTURE, ART & DESIGN

Designed by the internationally renowned firm Arquitectonica, Marquis Residences is a 67-story, crystalline sculpture formed by three intersecting parallelograms and sheathed entirely in glass. Inside this brilliant sculpture life takes elegance to new heights in 292 remarkable residences, while just beyond the threshold, Miami arrays its most revered cultural institutions before its most captivating view.

At night, the “Biscayne Beacon” designed by Arquitectonica, glows atop Marquis and is envisioned as an abstract signature light sculpture to enhance Miami’s city skyline. Commissioned for the North, South and West facades is “Miami Rain,” by famous sculptor Tom Patti. Angled fins of spectral glass wash the building in ever-changing color, uniting sun, sky, water and city.

ARRIVAL

Residents are welcomed to an exquisitely finished, double-height lobby. Floors of polished Himalayan Silk marble are inset with brushed Cashner marble. Walls are resplendent in highly polished Mink marble and Macassar Ebony wood panels.
