

ON AN ISLAND IN A VILLAGE TOGETHER

For decades, Key Biscayne has defined exclusivity. Its island beauty, village ease and beach clubs have always painted the ideal picture for those who value intimacy as much as luxury.

Oceana was invisioned with the culture of exclusivity in mind. It was then reimagined for the modern elite.

Discover the newest condominium residences to be built on Key Biscayne in nearly a decade. Own a rare opportunity for a modern home in one of Miami's most distinguished communities.

AS UNIQUE AS A PIECE OF ART

Dear Sir or Madam,

I would like to personally introduce you to my latest residential project, Oceana Key Biscayne. From concept to completion, these luxury condominiums and villas will reflect the union of two of my biggest passions, art and real estate.

In addition to being a collector and patron of fine art, I am also known for my personal method of selecting pieces of art. I aim to discover the best artistic moment of the artist and their best piece, and I bring that same philosophy to real estate.

That is how I see Oceana Key Biscayne:

As the last available piece of paradise on Key Biscayne, Florida, with the finest in architecture, interior design, landscape and construction quality.

I hope you appreciate its rare beauty as deeply as I do and the captivating moment spent in the tranquility of this exclusive environment. To step into Oceana Key Biscayne is to step into a priceless work of art.

I hope you and your family choose to make it your own.

Sincerely yours,

In 1975 he established a brokerage house, Consultatio Bursatil, which he later re-established as an asset management firm in 1991. That was the same year in which he assumed the vice presidency of Banco Francés del Río de la Plata.

He then ventured into the real estate market and has done some of the most prominent developments in Argentina, such as Nordelta district, and the construction of twin luxury office towers in Catalinas Norte office park. E. Costantini is an art collector. In 1995 he created the Eduardo F. Costantini Foundation, which he presides in 2001, he opened the Malba-Colección Costantini, Latinamerican Art Museum of Buenos Aires which is a private cultural nonprofit institution that exhibits as its heritage foundation the Colección Costantini. He resides in Argentina from where he leads developments around the world.

He is a member of the International Advisory Board of the Museum of Modern Art, MoMA, N.Y.

YabuPushelberg

Walking the fine line between edgy and elegant, Yabu Pushelberg artfully reconciles opposites. George Yabu founded the Toronto firm with Glenn Pushelberg in 1980, after graduating from Ryerson Polytechnic. Both launched their careers with private practices: Yabu in residential design and Pushelberg in retail. They later fortuitously met and opened their joint studio, now headquartered in New York. The duo's design compatibility is grounded in a shared commitment to experimenting with materials, processes and ideas.

This innovative approach has garnered numerous accolades for Yabu Pushelberg. These include a coveted James Beard Foundation design award as well as the International Hotel/Motel & Restaurant Show's Gold Key Award for Excellence in Hospitality Design.
